

UNIVERSITY OF ALASKA

SCIENTIFIC DIVING PROGRAM

Scientific Diving Program began in 1972 under the
auspices of the American Academy of Underwater Sciences.
Through multiple courses in scientific diving and various
research projects, the program trains and educates

Scientific Diving teaches students the basic cold water diving and research skills needed to conduct dive-related fieldwork in high latitudes. Trained scientific divers can enroll in other dive-related courses in subsequent years, and are eligible to dive on UA-sanctioned diving projects. Graduates of the diving program are now doing diving-related work across Alaska, the nation, and the world.

UAF courses include:
