Employer Responsibilities When Hiring Foreign Workers

To help ensure that only those who should receive a number do so, Social Security has taken extra steps to ensure the integrity of Social Security numbers. The changes to the way Social Security assigns numbers and issues cards may cause a delay of several weeks or months in receiving a number. This fact sheet addresses employer responsibilities when hiring foreign workers (e.g., students or cultural exchange visitors) who have applied for and are waiting to receive a Social Security number and card. Note that the employee may work while the Social Security number application is being processed.

When foreign workers apply for Social Security numbers, Social Security verifies their documents directly with the Department of Homeland Security (DHS). Most applications are verified immediately, but there can be delays. Social Security understands that this process may affect companies who hire foreign workers, but direct verification from DHS is vital to ensuring the integrity of the Social Security number.

Advise workers that they are required to apply for a Social Security number and card. If a worker applied for but has not yet received a Social Security number, you should get the following information as complete as possible: The worker's full name, address, date of birth, place of birth, father's full name, mother's full maiden name, gender and the date he or she applied for a Social Security number.

Paper Filers: If the worker applied for a card but didn't receive the number in time for filing, enter "Applied For" in Box a. (Reference: <u>IRS Instructions for Forms W-2/W-3)</u>

Electronic Filers: If the worker applied for a card but didn't receive the number in time for filing, enter all zeros in the field for the Social Security number. (Reference: Specifications for Filing Forms W-2 and W-2c Electronically)

Remember to instruct the worker to tell you the number and the exact name printed on the card, when he or she receives it.

When you receive the worker's Social Security number, file Form W-2c (Corrected Wage and Tax Statement), to show the worker's number. Go to <u>How to File Correction Forms</u> for instructions on filing W-
