Rural Development 340: Community Research Toolbox

Course Requirements

Assignments/Course Grade Components:

Attendance and Participation: It is important that each student join in class discussion. We all bring a unique perspective to the class and we will all learn more if everyone participates. Each student is allotted two absences for any reason during the course (please don't be absent on your scheduled presentation) after which absences will begin to affect your grade.

Research method design, write up, and presentation: Each student will practice three (3) separate research methods in the categories of utilizing existing data, interview methods, and observational methods. Each student will:

- x Choose a topic (one topic)
- x Design a question around that topic for each research method.
- x Analyze and write up the results of each method.
- x Present the process and results of each method in class.

Group Project: We will do a group survey or questionnaire project for this class. As a class you will: . Each student will

Rural Development 340: Community Research Toolbox

Grading: Your grade will be based on the following:

Method Writeups (3)	30%
Methods Presentations (3)	30%
Group Project	
Participation	10%
Analysis (written)	05%
Presentatio 0 T8
